

IVECO extends Eurocargo range with new 18.5-Tonne model for Taiwanese market

IVECO presented the Supercargo 18.5T at Commercial Vehicle Exhibition in Taichung City. The new vehicle combines all the advantages of the Eurocargo range with the benefits of a higher payload.

Taichung, April 14, 2021

PROSPRISE International Corp, the authorized importer and distributor of IVECO Heavy Duty Truck in Taiwan, is present at the Commercial Vehicle Exhibition (CV News), which is being held at the Taichung International Exhibition Center from April 14 to 18. On the 288-square meter IVECO stand in Exhibition Hall No.1, Section 3, it showcased the Eurocargo models currently available in the Taiwanese market. Three vehicles were on display:

A Supercargo, ML 180: with a Gross Vehicle Weight (GVW) of 18.5 tonnes, the ML 180 offers the benefits of higher payloads, outstanding performance, great maneuverability, and market-leading ergonomics and comfort. It is equipped with a Euro VI-D Tector six-cylinder 6.7-litre diesel engine, which delivers 320 hp maximum power, and a choice of 9-speed manual or 12-speed automated gearbox.

Two Eurocargo, ML 150 - 4x4: Available with a day cab or sleeper cab with a standard roof, the new Eurocargo 4x4 truck is equipped with a front towing jaw (as standard) and special protection for off-road driving. IVECO Tector six-cylinder engines are available with power ranging from 250 to 280 hp, combined with 6-speed manual gearboxes. A PTO can also be integrated into the gearbox and a double rear wheel is available.

Michelangelo Amelia, Business Director of IVECO Southeast Asia and Japan operations stated: “Taiwan is one of the leading markets with tight emission standards in Southeast Asia, and we are very proud to offer our multi-awarded vehicle as the ideal partner for customers’ businesses in this country. Thanks to its versatility and sustainability, we are confident that the Eurocargo is set to be one of the vehicles in highest demand in the market”.

Jason Lin, Sales Manager of Prosprise commented that, “Prosprise International Corp has been dedicated to introducing the most suitable commercial trucks to the Taiwanese market. Vehicles that deliver the best performance and at the most competitive market price, so our customers can be confident in their choice of IVECO. We are progressively extending our service points to provide owners effective service and maintenance support.”

The Eurocargo: The truck the city likes

Medium range vehicles are mainly used for missions such as urban distribution and municipal services: this is why IVECO has set performance improvement and fuel consumption reduction as a top priority. With the FPT engines, 15 to 18.5 tonnes of GVW, the Eurotronic and Alison transmissions, the HI-SCR system with passive diesel particulate filter (DPF), and Advanced Driving Assistance Systems such as the Lane Departure Warning System (LDWS), Advanced Emergency Braking System (AEBS) and Adaptive Cruise Control (ACC), the Eurocargo is the truck the city likes.

The multi-mission truck

More attractive, versatile, efficient and maneuverable than ever: the Eurocargo boasts a new design and functionalities while maintaining and improving the essentials that have made it the reliable, robust and versatile vehicle of choice customers around the globe. In this continuously changing world and increasingly competitive market, the New Eurocargo is the business partner – and companion – for everyone.

IVECO HI-SCR SYSTEM: The most efficient Euro VI technology

IVECO's exclusive HI-SCR technology is the only emission control system that does not alter the combustion process, because it works through fresh and clean air intake rather than exhaust gas recirculation (EGR). This makes the percentage of particulate so low that there is no need for an active DPF, therefore no forced DPF regeneration is required.

IVECO

IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE:CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and sales a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3.3 to 7.2 tons vehicle weight segment, the Eurocargo from 6 to 19 tons and, in the heavy segment above 16 tons, the Trakker (dedicated to off-road missions), the IVECO WAY range with the on-road IVECO S-WAY and the IVECO X-WAY for light off-road missions. In addition, the IVECO ASTRA brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

IVECO employs close to 21,000 people globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the

latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.
