## Upgrade Your WiFi to First Class

of today and tomorrow with WiFi 6. WiFi 6 allows more devices to connect and stream simultaneously, without impacting speed or reliability, by efficiently packing and scheduling data. Deliver the fastest WiFi to your connected devices

## Cutting Edge Performance

**4.5X Better Performance than an AC Router**-6 Stream WiFi with up to 5.4Gbps<sup>+</sup> for fast wireless speeds.<sup>\*\*</sup>

More WiFi for More Devices–OFDMA allows efficient data transmission at the same time.<sup>§</sup>

Powerful Processor–1.5GHz Triple-Core processor ensures smooth 4K UHD streaming.

4 Gigabit Ethernet Ports–Connect more wired devices for faster file transfer and fewer uninterrupted connections.

externd wireless range Coverage indoors and out.

**160MHz Channel Support**–Enjoy greater than 1 Gbps WiFi speeds for blazing fast streaming and downloading to newer mobile devices.

Wi-Fi 6 supports all current WiFi devices–Backward compatible with Wi-Fi 5 and earlier generation devices.
