NETGEAR ProSAFE 24-Port Gigabit Smart Switch

High Performance, Reliability, and Easy Management

- Managed via Web GUI or Smart Control Center utility software.
- VLAN support for traffic segmentation.
- 802.1p and Layer 3-based (DSCP) Quality of Service (QoS) for traffic prioritization.
- Auto 'Denial-of-service' (DoS) prevention.
- 802.1x authentication with guest VLAN, MAC and IP-based ACL Filtering.
- Loop prevention and broadcast storm controls.
- IGMP snooping for multicast optimization.
- Rate limiting for better bandwidth allocation.
- Port mirroring for network monitoring.
- Jumbo frame support
- Link Aggregation

The NETGEAR ProSAFE 24-Port Gigabit Smart Switches offers new, powerful L2 and L2+ features with enhanced performance and usability. It is designed for the future where increased traffic and application-oriented tasks demands more intelligence at the edge. With 24 10/100/1000 Mbps ports and support for Jumbo frames, capable of powering 2000 Mbps of data throughput in full-duplex mode per port, it is ideal for small offices or branch offices and connects high speed servers or power users.

Package Contents

- ProSAFE 24-Port Gigabit Smart Switch (GS724T)
- Power Supply
- Rack-mounting kit
- Quick Install Guide
- Resource CD with PC Utility Software.

NETGEAR®
ProSAFE®

Physical Specifications

Dimensions (w x d x h): 17.3 x 8.0 x 1.7 inch

Weight: 6.04 pounds
