Stefan Vollmer
Chief Technology Officer
TÜV SÜD Sec-IT GmbH

Stefan Vollmer has been Chief Technology Officer of the Cyber Security Services Business Unit at TÜV SÜD since July 2018. In this function, he heads the global teams of experts in the areas of penetration testing and threat intelligence. In addition, the development of the global competence centers and hacker labs as well as the development of new services in the area of cyber security at TÜV SÜD are part of Vollmer's competence. Before joining TÜV SÜD, Vollmer worked as a Cyber Security Analyst at Airbus Defence & Space and as a Cyber Threat Analyst in the public sector. Vollmer laid the foundation for his career as a systems IT specialist at Rohde&Schwarz and studied electrical engineering and information technology.

About TÜV SÜD

Founded in 1866 as a steam boiler inspection association, the TÜV SÜD Group has evolved into a global enterprise. More than 24,000 employees work at over 1.000 locations in about 50 countries to continually improve technology, systems and expertise. They contribute significantly to making technical innovations such as Industry 4.0, autonomous driving and renewable energy safe and reliable.
