SWISS offers new Business Class amenity kits

The Airline of Switzerland is introducing new amenity kits for its Business Class guests on long-haul flights. The new collection is a product of the collaboration between Swiss International Air Lines (SWISS) and Victorinox, and features a range of amenity kits in a multifunctional design.

Business Class travellers on SWISS long-haul services can now enjoy a new line of amenity kits. The new collection and its design have been developed in collaboration with Victorinox, the renowned manufacturer of Swiss pocket knives. A total of six different kits have been created in all, which will be offered on board at differing periods. The collection has been specifically designed so that all the kits are reusable and can partially be combined.

The collection for long-haul flights from Switzerland includes a practical passport holder, a travel toiletries bag with inner pockets and a longer bag with an inner pocket. On long-haul flights to Switzerland Business Class travellers will be offered a high-quality metal tin that is modelled on the Victorinox suitcase design and can find further use as a pen or pencil box.

Every kit contains a toothbrush and toothpaste, a lip salve, a sleep mask, socks and earplugs. The new Victorinox Business Class amenity kits will be available in Business Class on SWISS flights for the next three years.
