Facial skincare is one of the most sensitive areas in every person's beauty regime. The Spa at Wynn offers a variety of facial treatments and carefully select essential oils and anti-aging skin care products made of natural herbs designed to bring out the inner beauty of each guest. The Beau-TEA Ritual treatment is one of the most distinctive treatments designed by The Spa at Wynn team which combines a variety of tea elements with facial steam and special acupuncture techniques applied by therapists to inject antioxidants into every inch of the skin for a truly refreshing glow.

The Spa at Wynn's interior design draws inspiration from both the East and West. Rich and natural minerals such as stones and mahogany are incorporated throughout the space for balanced lines and a more modern feel. The design team also created an artistic space in which the wall is adorned with lantern and jade inspired installations and the ceiling is decorated with lotus flowers to create a sense of calm and for a feeling of being surrounded by nature.

Adjacent to The Spa is the Salon at Wynn which provides professional hair styling services from an experienced team of stylists. Guests who have their nails manicured at the Salon at Wynn will also be able to relax and enjoy the magnificent view overlooking the swimming pool with lush gardens throughout their treatments.
