## **Wynn Proudly Presents Jane Zhang's first ever extended reality online concert "Future Retro"**

**Macau, October 12, 2021** — Wynn proudly presents the "Future Retro" online concert in partnership with Tork Media on October 22. Featuring Chinese singer, song-writer Jane Zhang, the powerful vocalist will soon send shockwaves around the world with her first ever extended reality (XR) online concert of incredible visual artistry and sensational sound. "Future Retro" will be broadcast on iQiyi and Tencent Video at 7:30pm.

Renowned for her remarkably high vocal range, Zhang sings notes that most humans cannot even hit, and will soon impress audiences the world over with her latest "Future Retro" virtual concert. She says of her upcoming event: "I am very happy to be working with a really good team this time, where we can use extended reality technology to create a powerful, cutting-edge XR concert that is impossible to achieve in traditional offline concerts. We are definitely introducing a brand new interactive experience like never before."

Dubbed the "next-generation of entertainment", XR technology goes far beyond the traditional concert. XR sets the stage for a much more immersive experience for viewers by combining augmented reality (AR) with mixed reality (MR) for dramatic visual effects and spectacular virtual stage scenes. AR differs from virtual reality (VR), as it combines virtual objects and real scenes. With AR, scenes that do not exist can be reproduced, creating a multi-sensory experience for viewers and high-level engagement. This phenomenal concert, designed to break through boundaries, gives audiences an opportunity to witness a powerful combination of cutting-edge visual artistry and innovative music.

Tickets are on sale now for RMB 25 on iQiyi and Tencent Video. For more details, please visit the Wynn Resorts official WeChat account.
