

## Press Release

### Lamborghini Huracán GT3 Customer Team Lineup Continues to Grow with Addition of Paul Miller Racing

**Sant'Agata Bolognese, Italy (Oct. 20, 2015)** - The Lamborghini Huracán GT3 program continues to progress toward its first season in North America with the addition of Paul Miller Racing to its customer team lineup.

Paul Miller Racing has confirmed its intent to participate in the IMSA WeatherTech SportsCar Championship in the GT Daytona (GTD) class. This addition comes after Super Trofeo teams Change Racing, O'Gara Motorsport and Konrad Motorsport announced their intent to race the Huracán GT3 in North America.

"We are excited to add Paul Miller Racing to our Lamborghini lineup for 2016," Automobili Lamborghini Head of Motorsport Giorgio Sanna said. "The GT3 is the pinnacle of our racing strategy and we expect a team with their experience and success in North American sportscar racing, along with our other customer teams, to raise the level of competition and elevate Lamborghini Squadra Corse in North America."

Team Owner Paul Miller has a wealth of experience as a driver and owner. He competed in the 24 Hours of Le Mans three times and in the 24 Hours At Daytona nine times, topping the GTD class in 1988 at Daytona. This experience has translated to continued team success, including two top-three GTD finishes in the last two years.

"All of us at Paul Miller Racing are excited to be partnering with Lamborghini in its inaugural season of IMSA WeatherTech SportsCar Championship competition in 2016," Miller said. "We believe our passion to win and our expertise in U.S. racing fits well with Lamborghini's long-term goals. We have followed the progress of the Lamborghini Huracán GT3 very closely in Europe this year, and the development and engineering of this race car has been significant and impressive. We fully expect the Huracán to be a GTD contender from the onset of the season and, as a team, we are very confident in our ability and familiarity with a mid-engine platform after our last two successful seasons of competition."

The official North American racing debut of the Huracán GT3 is scheduled for the 24 Hours At Daytona on Jan. 30-31 with multiple customer teams, including Paul Miller Racing, continuing Lamborghini Squadra Corse's tradition of customer support.

Lamborghini's projected move into GTD comes as the class adopts the 2016 FIA GT3 specifications for all of its entries.

The 585-horsepower Huracán GT3 was born from a desire to offer factory-built and supported cars to customers worldwide. It is the first GT3 car to be fully engineered, developed and assembled internally by Automobili Lamborghini.

The move to GT3 racing in North America is the exciting next step as the Lamborghini Motorsport program continues to build its racing ladder. The GT3 program is the top step of an impressive pyramid, which includes Lamborghini Esperienza and Accademia and three Lamborghini Blancpain Super Trofeo series worldwide.

The Lamborghini Huracán GT3 will be introduced in both North America and Asia, after having already proven itself in Europe this season running in the Blancpain Endurance Series with Grassier Racing Team, where it has won the season opener at Monza (Italy) in April.

Driver announcements for all four Lamborghini customer teams hoping to vie for a GTD championship in 2016 will come as the Huracán GT3 are delivered to the teams and testing begins in the next few weeks.

### **Automobili Lamborghini S.p.A.**

Founded in 1963, Automobili Lamborghini is headquartered in Sant'Agata Bolognese, in North-eastern Italy. The Lamborghini Huracán LP 610-4, which made its world debut at the Geneva Motor Show in 2014, is the successor to the iconic Gallardo and, with its innovative technology and exceptional performance, it redefines the driving experience of luxury super sports cars. The Coupé and Roadster versions of the Aventador LP 700-4 and the Aventador LP 750-4 Superveloce and Superveloce Roadster are the new benchmark in the world of luxury super sports cars with the V12 engine. With 135 dealerships throughout the world, Automobili Lamborghini, in half a century, has created a continuous series of dream cars, including the 350 GT, Miura, Espada, Countach, Diablo, Murciélago, and limited series including Reventón, Sesto Elemento and Aventador J. The Veneno Coupé, Egoista and Veneno Roadster were produced to celebrate the 50th birthday of the company in 2013.

### **PERTAMINA**

World Class Oil, Gas & Energy Company

Pertamina is an Indonesian state-owned oil, gas and energy company established December 10, 1957. PERTAMINA's scope of business incorporates the upstream and downstream sectors of oil, gas and energy. The upstream sector covers oil, gas and geothermal energy exploration and production both domestically and overseas. This activity is pursued through own operation and through partnerships in the form of joint operations with JOBs (Joint Operating Bodies), TACs (Technical Assistance Contracts) and JOCs (Joint Operating Contracts), whereas the downstream sector includes processing, marketing, trading and shipping. Commodities produced range from Fuel (BBM) and Non Fuel (Non BBM), LPG, LNG, Petrochemicals to Lube Base Oil and Lubricants.

Pertamina operates worldwide which several oil block operated outside of Indonesia, and markets its lubricants to more than 25 countries. Inside of Indonesia Pertamina operates six oil refineries with a total capacity of 1,03 MBSD, plus 56 aviation depots three lube oil blending plants, 113 fuel depots, and 4,677 fuel stations.

Pertamina's achievement of becoming a Fortune 500 company reflects the company's achievements in expanding its markets around the world, and through its premium lubricants, Fastron Platinum and premium fuel Pertamax racing, will support the Lamborghini Squadra Corse activities from 2015 to 2019.
