The Lamborghini Huracán EVO: build a super sports car in a 3D jigsaw puzzle

Sant'Agata Bolognese, 16 September 2020 - A 3D jigsaw puzzle, creating the Lamborghini Huracán EVO super sports car is the product of a new collaboration between Automobili Lamborghini and Ravensburger, a leading games and recreation brand.

The 3D puzzle allows Lamborghini enthusiasts to faithfully recreate the Huracán EVO V10 car in a 1:18 scale, replicating its dynamic lines and sophisticated aerodynamic styling through 108 numbered plastic pieces plus accessories.

Mounted onto a replica chassis, every detail is faithful to the real car, from the Y-style front bumper and Y-shape in the headlights, to the hexagonal details found throughout the car and the original Arancio Xanto orange color of Lamborghini cars. The finished model, with the distinctive Lamborghini design DNA evident in its low-slung profile, measures 26 cm in length. Distinctive finishing touches are realized by the 32 high-quality feature accessories, such as the axles and four rotating wheels that faithfully replicate the Aesir rims found on the real car, along with front splitter and rear diffuser.

The Ravensburger 3D Puzzle Lamborghini Huracán EVO recreates the emotion of Lamborghini in a fun-to-build puzzle and model to be admired in the living room, for adults and children of eight years and older. In stores for (RRP) EUR €34.99.
