

**Coming soon, the Master & Dynamic headphones and earphones for Automobili  
Lamborghini in the Squadra Corse version  
The audio devices at the 2021 Super Trofeo World Finals**

*Sant'Agata Bolognese, 15 November 2021*– One year from the news of the partnership with Master & Dynamic, Automobili Lamborghini announces the Squadra Corse version of co-branded headphones. Master & Dynamic, a New York brand and a leading producer of premium audio devices, takes on the official colors of Automobili Lamborghini Squadra Corse, adding the new version of headphones and earphones to the three liveries already available.

The collection comprises two of Master & Dynamic's most technologically advanced audio devices, with wireless connectivity range up to 30 m. The MW65 wireless headphones, equipped with Bluetooth 4.2 technology supporting AptX and SBC, feature two ANC (Active Noise-Cancelling) modes, so that each user can adjust the sound according to the listening environment, and battery life up to 24 hours. The MW07 PLUS True Wireless earphones, equipped with Bluetooth 5.0 technology supporting AptX and SBC, boast 10 mm beryllium drivers for optimal sound quality and a stainless steel charging case that provides a full 40 hours of battery life.

The MW65 wireless headphones and MW07 PLUS True Wireless earphones are offered with a Y pattern and the Mantis Green color, the same color as the Lamborghini super sports cars. The headphones feature a black anodized aluminum frame covered with black Alcantara® and Mantis Green leather, and the exterior of the speakers is in sapphire glass that reveals the Automobili Lamborghini Squadra Corse logo and the pattern with the green Y. The MW07 PLUS acetate earphones are inspired by the striking finish of Lamborghini models, and the stainless steel charging case echoes the use of matte paint for the bodywork.

The world finals of the 2021 Lamborghini Super Trofeo at the Marco Simoncelli International Circuit in Misano Adriatico were the perfect setting to experience the new earphones and headphones, to be immersed in the silence and seek concentration before the race or to relax after the exertions of the race and the hours of adrenaline.
