

Speed IGNITE NETFIT

One shoe, infinite lacing styles, more speed.

Fast just got faster thanks to a match made in speed heaven.

The PUMA Speed IGNITE NETFIT incorporates the pinnacle of PUMA's performance features in one shoe designed to make you lighter, more agile and faster. The NETFIT upper offers users a customizable lacing system for an entirely individual fit, marry this with PUMA's evoKNIT upper liner and you have a shoe that forms to the shape of your foot like nothing before. And, of course, there's a longer set of laces available for further customization options.

The dual layer midsole features PUMA's proprietary IGNITE PU foam that provides long lasting energy return and PUMA's moulded Eco Ortholite Sockliner offering a breathable, anti-microbial sockliner for exceptional step-in comfort. The Speed IGNITE NETFIT all sits on PUMA's high-grade engineered outsole, giving users a propulsion zone featuring forefoot flex grooves fortified by rubber to provide a snappy, quick toe-off during the run. The outsole heel is injected with PUMA's EverTrack+, a blown rubber compound that gives enhanced cushioning and durability, whilst being 43% lighter.

In short, the Speed IGNITE NETFIT brings together everything you need to be as fast as you can. We've done our bit, now it's up to you – do you dare to be faster?
